

WITH PWV NORTH'S EXPERIENCE

in the Court Bond market there is no need to look any further for all your Master of the High court needs:

Executor Bonds

We offer Executor bonds to all FISA Members, Attorneys, Accountants, and other professionals specialising in deceased estates. We also offer insurance to cover the assets while the estate is being finalised.

Trustee Bonds

There has been a recent surge in demand in the market from Trustees requiring bonds to the satisfaction of the Master. These bonds often relate to trusts set up in the administration of RAF and Medical Malpractice payment proceeds. PWV is able to source capacity in this regard from a large Insurer that is on the Master's panel and will assist in providing Trustees with these bonds.

Curator Bonds

Curators generally battle to find cover in the local market for bonds of this nature. Let PWV North solve this problem for you by arranging capacity for Curator Bonds of all sizes. We do both Curator Bonis Bonds relating to incapacitated persons' estates and Curator Bonds issued in terms of The Prevention of Organised Crime Act.

Liquidation bonds

PWV North understands the insolvency industry and the nature of liquidation bonds, including the short timelines required to enable practitioners to obtain certificates of appointment expeditiously. Coupled with our efficient service, PWV North in conjunction with its underwriters and Insurers have managed to secure sufficient capacity to service even the largest of bonds in the market.
