

South African Revenue Service

Dear Stakeholders,

SARS TAX DIRECTIVES IMPLEMENTATION – FRIDAY, 15 SEPTEMBER 2023

In our endeavour to provide clarity & certainty and make it easy for taxpayers and traders to fulfil their obligations whilst ensuring safe & secure digital platforms, we continuously maintain and enhance our systems.

With reference to our previous communication, enhancements to the Tax Directives system will be made in line with the 'IBIR-006 Tax Directives Interface Specification Version 6.504.

In support of this we have a planned enhancement to the Tax Directives system scheduled for Friday, 15 September 2023.

Kindly note that no Tax Directives files on the current production form version should be submitted after 16:00 on 15 September 2023. Tax Directives files using the new form version sent after 16:00 on 15 September 2023 will be queued and will be processed after the completion of the system upgrade.

Your ongoing support and collaboration are as always, highly valued.

The South African Revenue Service
